

Basic Detail Report

Picnic at Tlell

Date

1917

Primary Maker

Beitush, Bob

Medium

Prints

Description

This is an original print of Bob Beitush's glassplate negative out number Ne. 2.8. The print was made before the negative was damaged and has much better photographic information than remains in the negative.

This photograph is of a large gathering of people seated at a very long table. There are 41 people in this photograph 18 of whom are sufficiently visible that identification may be possible. The photograph was removed from an album as there are black paper fragments glued to the back. There is edge damage to all edges. The bottom left hand corner is missing.
