

## Fishing Net

**Date**

1899

**Medium**

nettle

**Description**

although Aaronson says 'cedar bark', this net is probably of nettle fibre, twisted into twine and tied to form the net. Aaronson notes; 'used by the Indians for catching large salmon and dogfish, etc.' the holes in the net are approximately 2.5" square.

**Dimensions**

Other: 239 × 350 cm (94 1/8 × 137 13/16 in.)
